4-1

ASSET EXPLORER - AW01N

This transaction is used to view:

- all values posted to the asset
- both depreciation areas
- depreciation postings
- all transactions posted to the asset – you may use the drilldown function to access the document overview and display the actual accounting (posting) documents

4-3

AASIS Support Center, Patricia Orr
03/01/2004

Planned values for depreciation area 01 will populate the screen-scroll to view transactions.

Enter Company code-ARK and Asset number to display. Enter.

Report Date field:

Current fiscal year – Enter the date for any period.

You must enter the last day for that particular period.

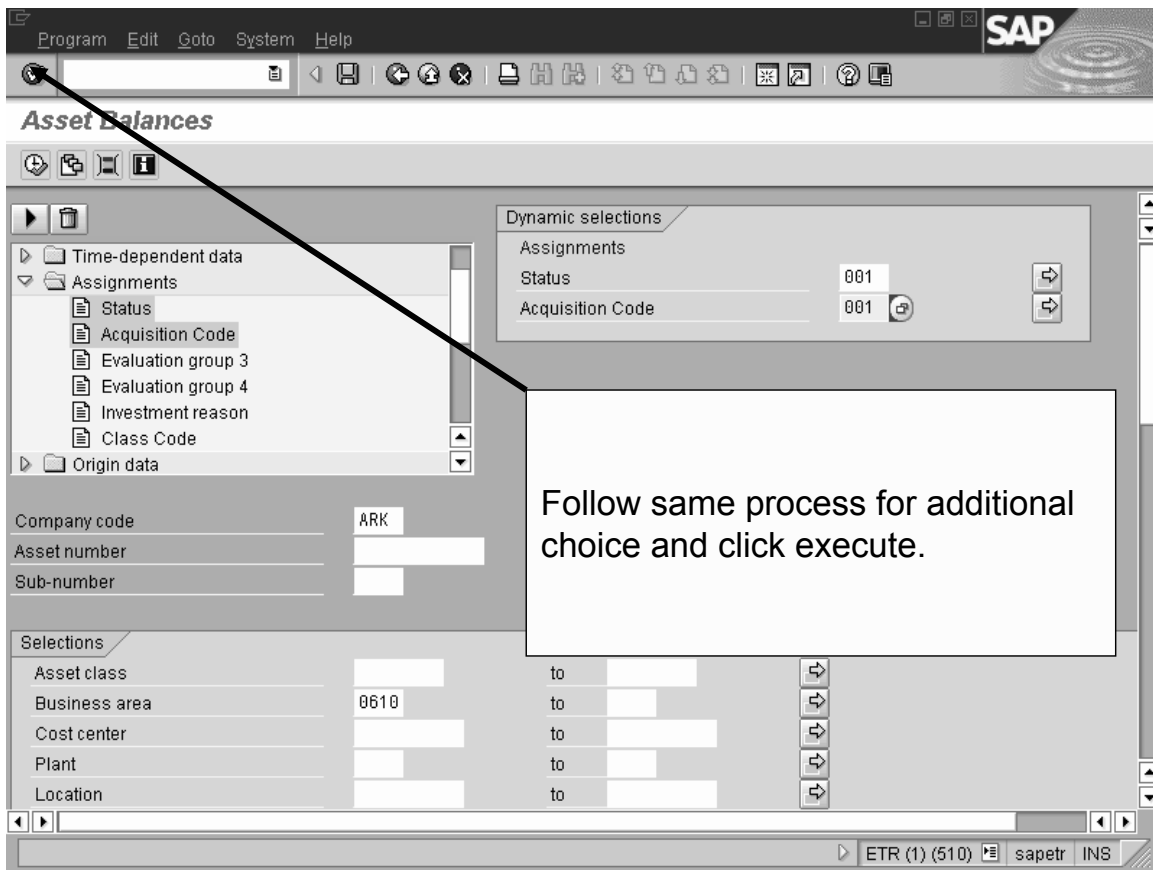

Closed or future fiscal years – Enter the last month and day for the particular fiscal year.

4-11

AASIS Support Center, Patricia Orr
03/01/2004

Information that is in the asset master record may be selected as criteria to run the report.

The screenshot shows the SAP Asset Balances screen. A callout box points to the 'Dynamic selections' section, which contains the following fields:

Dynamic selections	
Assignments	
Status	001
Acquisition Code	001

Below the callout box, the 'Selections' section is visible, containing the following fields:

Selections	
Asset class	
Business area	0610
Cost center	
Plant	
Location	

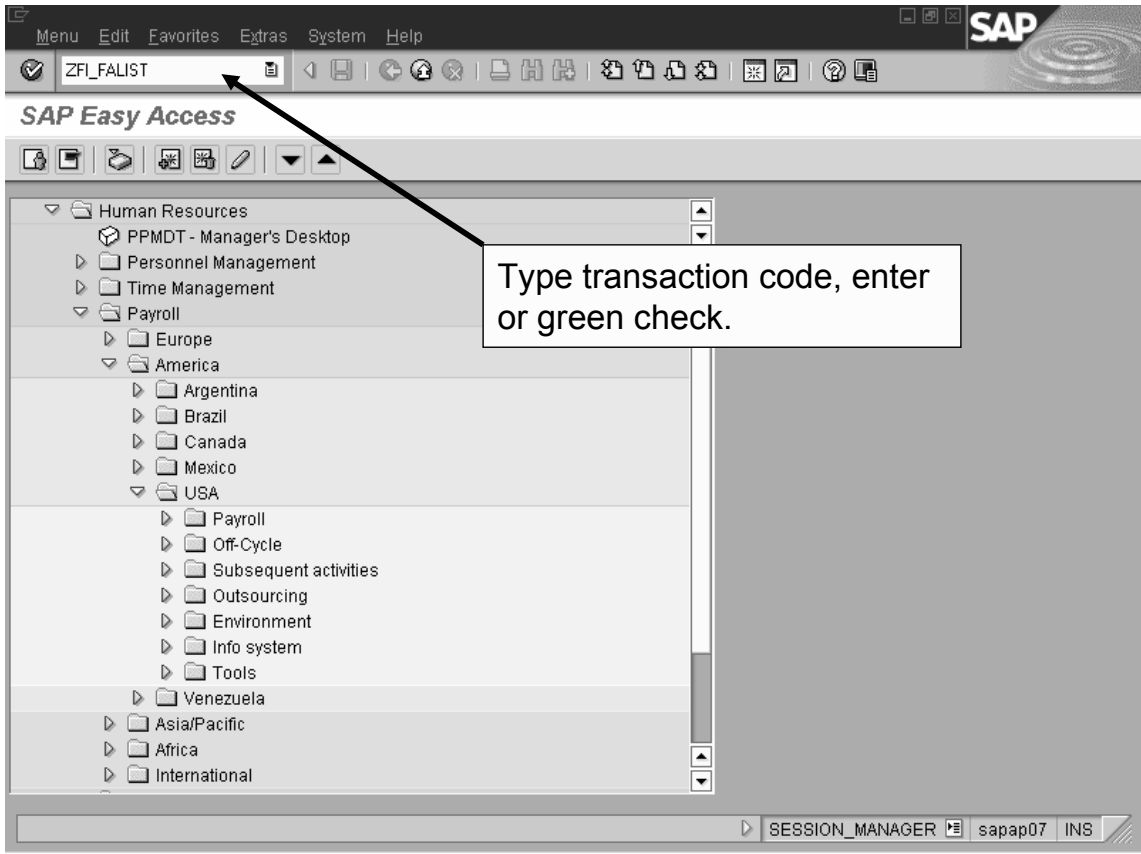

The status bar at the bottom shows: ETR (1) (510) sapetr INS

Follow same process for additional choice and click execute.

FIXED ASSET LIST ZFI_FALIST

This transaction allows you to pull up a list of assets using several different selection and processing options.

Filling in the above fields will give you a list of all classes of assets.

If the Real depreciation area and Fiscal year fields are not completed the assets will be listed on the report multiple times. Remember there are 2 depreciation areas in AASIS and if one is not specified then both will be listed. If fiscal year is left blank, there will be a line for each year that the asset was active in AASIS.

The date validity ends 12/31/9999 so that assets that have additional intervals for time-dependent data will be listed only once.

The screenshot shows the SAP Fixed Asset List report. The title bar includes 'Report Edit Goto System Help' and the SAP logo. The report title is 'Fixed Asset List'. The table below lists various assets with their details.
